

The ultimate surface for multi-purpose courts

www.courtpave.com

COURTPAVE MULTI-PURPOSE SURFACE

Courtpave is a surfacing system specially formulated for application to concrete and asphalt courts with an array of features and benefits.

COURTPAVE FEATURES

- Lessens fatigue and decreases surface temperature
- Glare free, highly durable and superior traction
- Reduces scuff marks, chalking and staining
- True and even ball bounce
- UV inhibitors added for improved colour retention
- Selected reinforcing fillers to assist in wear resistance
- Fungicidal additives to reduce mould and algae growth, resulting in lower maintenance
- Balanced formula of high-grade acrylic resins
- Installs quickly and easily onto concrete and asphalt surfaces
- Developed specifically for court surfaces
- Surface preparation products are available for rejuvenating old, damaged courts
