

## RESIN BOUND GRAVEL - Pour-on version

The cost-effective alternative to Techlay Full Bound premixed gravel

The Techlay pour-on alternative is the cheaper solution for all gravel areas. For a beautiful loose gravel look without the hassle, why not consider Techlay Pour-on. This new system from the experts in resin bound technology provides a way of binding aggregate for a low maintenance area of paving.

This product is ideal for all areas including median strips, traffic intersections, road verges or pathways. Leaving no loose gravel and yet still a totally porous surface, Techlay pour on solutions provide a safe, secure and long lasting surface at a fraction of the price of full-bound pre-mixed gravel.

Unlike our fully bound premix gravel this product is not suitable for vehicles, however is ideally suited to light pedestrian traffic. Yet another quality solution from Techlay proving we are solutions driven ensuring quality products and services.

**COST EFFECTIVE SOLUTION**

**WATER RUNS STRAIGHT THROUGH**

**LOW MAINTENANCE**

**NO STONE MIGRATION OR LOOSE GRAVEL**

**ENHANCE GRAVEL COLOUR**

**SMOOTH HARDWEARING FINISH**
