

PLAYFLEX soft fall rubber

COLOURED RUBBER GRANULES

A seamless quality Techlay solution designed with total flexibility and safety in mind. Made from EPDM/SBR rubber granules and shreds, Techlay's Playflex ensures a secure comfortable textured finish providing ideal grip and outstanding shock absorption.

Highly durable and resistant to harsh climate extremes, Techlay Playflex is the ideal solution and is virtually maintenance free. All Techlay softfall products meet Australian and NZ standard 4422:1996

Playflex is ideal for children's playgrounds, play or childcare areas, parks, aged care facilities and other areas where a soft secure surface is needed to ensure safety and peace of mind. This product can be laid in and around existing obstacles or equipment and to any specification as it is installed using a "wet pour" process. It can be moulded to any design and colour specifications. At Techlay we use only the very best quality EPDM and CSBR products.

DURABLE - LONG-LASTING - WEAR RESISTANT

FIRM GRIP AND CUSHIONING CHARACTERISTICS
