

*"Real solutions...real service...real people"*

## RESIN BOUND GRAVEL

NATURAL GRAVEL & CRUSHED ROCK

Our resin bound natural gravels range offers the attractive appearance of loose aggregate. It can be laid faster than other paving and is pedestrian-ready in 3-5 hours and vehicle-ready in 12-16 hours.

StoneSet Resin Bound Gravel can be laid over many existing surfaces and it's design flexibility is ideal providing a multitude of creative options for planners and architects to use curves, patterns and a wide range of colours. Being porous, it allows water to permeate for SUDS (Sustainable Urban Drainage Systems). It is ideal for disabled access, children, bicycles, prams and outdoor playgrounds.

Using StoneSet Resin Bound Gravel means no weeds, standing water or loose stones.

**NATURAL GRAVEL QUARRIED FROM ACROSS AUSTRALIA**

**AVAILABLE IN 3mm / 6mm / 10mm**

**LOW MAINTENANCE**

**NO STONE MIGRATION OR LOOSE GRAVEL**

**WIDE RANGE OF COLOURS AVAILABLE**

**SMOOTH HARDWEARING FINISH**
